

INTRODUCTION

Our Purpose

"

**The innovation of new technology
is what shapes the future of our civilization,**

We are living in the era of innovation, where limitless technologies emerge, and the edge of technology keeps changing. Verst is a tech company that designs and build the solution to the new sophisticated problems.

INTRODUCTION

Driven by data, crafted by passion.

PRODUCT

Principles

We aim to build the best brand, and we achieve it by following our principles,

- 1.Data-driven solution
- 2.Continuous growth over finalized solution
- 3.Low-context communication
- 4.Be intentional, in every small details.

PRINCIPLE

Without principle, chaos is born

verst

Sophisticated, Reliable, Versatile, Discovery

Founder's Note

Spirit of freedom.

The things beyond horizon, something that is bigger than ourselves.

Verst is built for this reason. The excitement of new discover. The feeling when we have the freedom to create and innovate whatever we want. The struggle of committing through the lowest moments and the growth it offers. We are taking the first step in our exploration.

Edward Tanoto
CEO of Verst, Inc.
